Francisco*

Objectives:

Target audience: HIV Health Care Professionals

- To identify adverse effects of antiretroviral agents that have been recently approved by regulatory authorities
- To summarize results of ongoing international clinical trials investigating novel and established HIV treatment strategies
- To review some of the latest HIV pathogenesis issues and how they translate into possible future therapeutic intervention

California Pacific Medical Center is a CMA-accredited provider of continuing medical education. Physicians attending this course may report up to 2.0 hours of category 1 credit toward the California Medical Association Certificate in Continuing Medical Education and the American Medical Association's Physician Recognition Award. Nursing credit is awarded as category 1 credit.
